

# Flag Book Directions

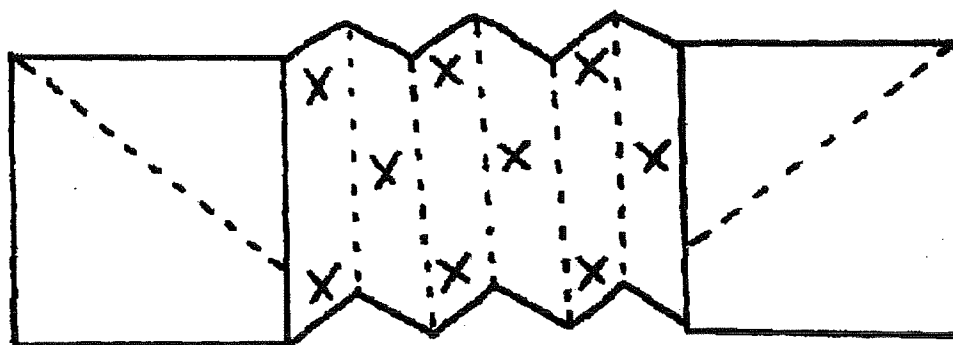

## Materials

3 sheets of 12"x18" construction paper  
9 strips of 9"x 3 3/4" construction paper  
scissors and glue

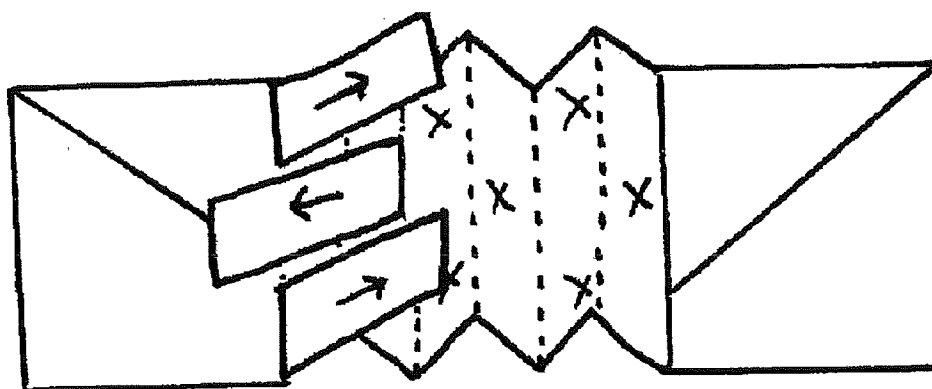

1. Fold two of the large sheets in half horizontally. Accordion fold the third large sheet into eight sections.

2. Glue one edge of the half sheets inside the end sections of the accordion piece. Fold corner of sheet to the inside to make a folder pocket. Three hills of the accordion book should be showing. Draw Xs as shown.

3. Glue strip or flags on the Xs. The short edge of the strip will go into the valley. On each hill two strips will go one way and the middle strip will face the opposite way. The first hill in the diagram is done. Each hill should look the same.

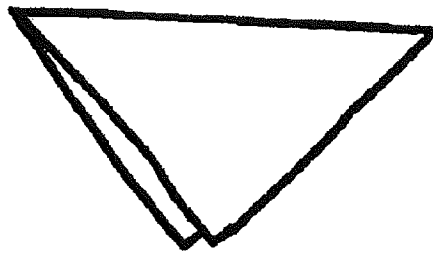

# Stretch Book Directions

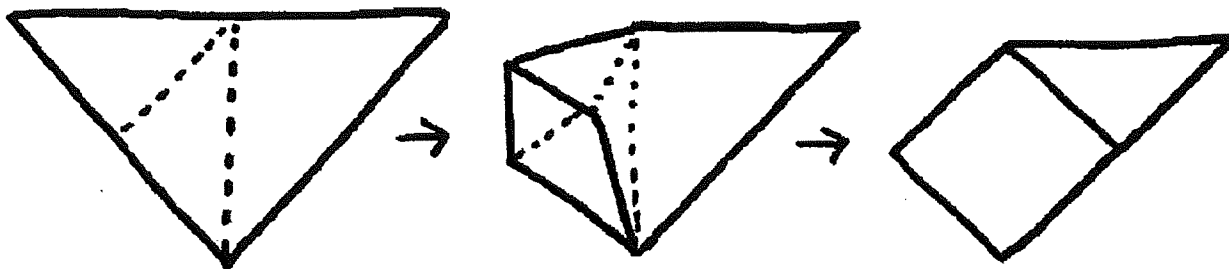

## Materials

3 square sheets of paper  
scissors and glue

1. Fold each paper square in half on a diagonal fold to make a triangle.

2. Fold the triangle in half then fold half of the triangle in half. Press half of the triangle open to make a square. It should look like a square on a triangle. Turn paper over so the square side is down.

3. Fold the triangle in half and press open to make a square. Now you should have a square on each side. When you open the square the two corners will pop up.
